Core competencies

• **Power BI & DAX Development**
Deep hands-on experience with Power BI and DAX, building BI solutions that create value for clients.

• **Data Modelling & SQL**
Designs robust semantic models and works with SQL, so the client's data is reliable, scalable and ready for advanced analytics.

• **Stakeholder Management**
Acts as a trusted advisor and communicates clearly with clients at all levels throughout the transformation journey.

• **Data Visualisation**
Develops clear, user-friendly reporting that gives clients actionable insight and strengthens adoption of the solution.

• **Decision Support & Forecasting**
Turns data into decision support that enables smarter decisions and sharper execution.

Peter Bekker

BI & ANALYTICS CONSULTANT | POWER BI, DAX & CLIENT ADVISORY

Analytical and business-minded BI & analytics consultant with 10+ years of experience turning complex datasets into valuable insights and decision support for clients. I have deep hands-on experience with Power BI, DAX and semantic modelling in the Microsoft ecosystem, and I build BI solutions all the way from mapping needs to finished, user-friendly reporting. I thrive in the trusted-advisor role, bridging business, management and IT and facilitating data-driven transformations. With previous roles in e-commerce and digital analytics at companies such as Saxo and YouSee, I combine technical depth with commercial understanding and a strong curiosity about AI and new ways to create value with data.

Work experience

NTT DATA Business Solutions — May 2026 – Jul 2026

Business Analytics Lead

Hired to help clients turn business requirements into Power BI solutions.

• My main tech stack: DAX development, Power BI and Azure DevOps.

Enversion A/S — Aug 2025 – Jan 2026

Senior Consultant

Hired to help the Danish Health Data Authority (Sundhedsdatastyrelsen) build a Power BI dashboard.

• At the end of the project, I delivered the following dashboard:

Power BI

Saxo — Feb 2020 – Jul 2025

Business Intelligence Analyst

• Started as the organisation's only BI resource and delivered end-to-end Qlik Sense support and advice across all departments.

• Analysed pricing strategies and customer behaviour, contributing to higher revenue and improved contribution margin.

• Identified key churn drivers and analysed marketing campaigns using Qlik Sense and Google Analytics.

IT skills

Data visualisation

- **Power BI:** Developing complex business logic in DAX, data transformations in Power Query and advanced data modelling in Tabular Editor.
- **Qlik Sense:** Developing complex business logic with Set Analysis and advanced Qlik expressions, plus data transformations and associative data modelling in Qlik's script engine (Data Load Editor).
- **Adobe Analytics:** Developing advanced Calculated Metrics and complex segmentation in Analysis Workspace.
- **Speech Analytics:** Developing tailored KPIs and sentiment-scoring models through advanced NLP-driven categorisation.

Advanced analytics

- **SQL:** Delivered tailored, data-driven insight to cross-functional stakeholders to support strategic decisions and fast problem-solving.
- **R programming:** Developed advanced pricing models based on competitor analysis (Quicklizard) to grow revenue, optimise margins and secure a strong market position.

Other tools

Excel, PowerPoint, think-cell, Klipfolio

Education & certificates

- **MSc in Economics and Business Administration (MSc EBA) Management, Accounting & Control** | Aug 2008 |
  Copenhagen Business School
- **PRINCE2 Foundation** |
  Nov 2012 |
  MetierWestergaard
- **PRINCE2 Practitioner** |
  Mar 2013 |
  MetierWestergaard
- **Data Science & Big Data Analytics** |
  Feb 2015 |
  EMC Education

YouSee Mar 2018 – Jan 2020

Senior Digital Business Analyst

Hired to help stakeholders with web analytics requests and turn digital data into actionable insights.

• Used Adobe Analytics to improve online self-service solutions and reduce the number of customer calls.

• Developed Power BI reports that supported better customer journeys and higher customer satisfaction.

Netdesign Sep 2014 – Mar 2018

Business Analyst

Hired to help external clients implement and use Speech Analytics.

• Used Speech Analytics to identify patterns in customer interactions and make support workflows more efficient.

Other work experience

Senior Analyst | Telenor | Mar 2014 – Jun 2014
Created PowerPoint presentations for management reporting.

Process Manager | TDC | Sep 2013 – Mar 2014
Project manager for implementing various IT systems.

Process Manager | YouSee | Apr 2011 – Sep 2013
Reported on customer experience management areas.

Process Consultant | YouSee | Feb 2009 – Apr 2011
Responsible for finding process improvements in the organisation.

Process Consultant | IMPAC Pte. Ltd | Oct 2008 – Jan 2009
Responsible for finding process improvements for a client in Norway.

Personal information

I live in a house in Lyngby with my partner Maria and my two children, Laura (9) and Emil (6). I spend my free time with the kids, catching up with old friends from upper secondary school, following football and the NFL, or reading the newspaper.
